

Remember, with Home Buddy you're never home alone!

Portable Alert Lifesaver with GPS locating

How it works...

1

Simply push the button wherever you are and speak to the care center.

2

"William, this is the care center. Is everything okay?"

"I have fallen out on my walk. I'm not sure where I am."

3

The care center then can contact anyone that Irving wants them to with the pre-set call list.

"911, this is the care center we have William that has fallen and we have located him at 18th and St. Paul."

"William help is on the way we will stay with you until it arrives."

Having a **Portable Alert Lifesaver** with you means that we're there to help with just the touch of a button.

No long term agreements

No equipment to purchase

Friendly local staff

No hidden charges

ALWAYS
24/7
ACTIVE

The peace of mind, security, and confidence with daily activities and maintain your independence can be yours with the high quality **Portable Alert Lifesaver with GPS locating**. That is affordable and easy to use.

1

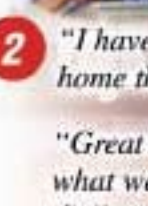

"I was on my way home and I am lost, can you help me get home?"

"Okay, Mary we have located you on the GPS, and we will help get you home."

2

"I have made it home thanks to you."

"Great Mary, that is what we are here for. Call us anytime."

The **PAL with GPS locating** is the first in the country. With this system you are able to stay independent and active. The Button will work anywhere there is cell phone coverage. Once you push the button you can speak to the care center as if it were a cell phone. The GPS locating works at all times, even if the button is not pressed.
