

Buddy System

Available Features

Well-being check...when this feature is turned on, simply push the button on the Caregard unit before you go to bed and when you get up in the morning. If the button doesn't get pushed, we'll call to check on you and send help in needed.

Medication reminder & dispensers... a simple reminder when it is time to take your medication.

If you miss, our operators notify you.

Key lock box...allows emergency personnel or caregivers to enter your secret four digit code, get a key and provide you with the assistance you need. (small start-up fee required)

Smoke detector monitoring...gives us the ability to contact emergency services right away when a smoke detector in your home is activated.

Home Buddy

Who we are. How we make it easy.

Our Care Center has experienced 16 wonderful years of helping keep seniors safe and independent. The **personal relationships** that have been a result of our business have given us the drive to continue to improve and develop new ways to make it easy for our clients.

The **caring and award-winning staff** is dedicated to your freedom and helping you live on your own as long as you can. Don't trust your freedom and independence to just anyone, go with the history, security, local team & award-winning service of Home Buddy.

The Care Center

Care...the essence of what we provide. Whether getting assistance, providing reassurance, or just a friendly voice, we're there when others can't be, and happy to speak with a "member" anytime.

Center...because we are at the center of getting information to all the parties involved in keeping our members safe and at home, where they are most happy.

You can have confidence the Care Center will be there when you need it because we designed it to incorporate the latest equipment and services from the leading companies in telephony and data processing.
